Intelligence and Enforcement

~

Intelligence Landscape

~

BLUF:

- ~ As of Feb 20 2022, 1200ET, the overall threat to CBSA officers and infrastructure remains low, but caution should be exercised in light of recent law enforcement actions and reporting surrounding IMVE messaging and activity.
- ~ ITAC continues to assess that the terrorism threat to uniformed personnel is medium.
- ~ IMVE adherents may feel empowered by the level of disorder resulting from the protests in Ottawa. This could lead to individuals vulnerable to extremist messaging to commit isolated acts of violence.

~

ANALYSIS:

General Threats

- ~ **No update.** CBSA has received a number of threats via email & telephone. The Border Information Services (BIS) has received multiple threatening phone calls from an American citizen.
- ~ **No update.** Given the events over the past few days in Ottawa, ON, Surrey, BC, Coutts, AB and Windsor, ON, there has been an intensification of online messaging of violence towards law enforcement personnel and a level of desperation as protests are quelled. This may compel some individuals to conduct violent action against targets of opportunity.

~

POE Threats

- No update. An ongoing analysis of SRT reporting, OSINT, and limited partner intelligence indicates that there are no credible threats currently identified for any POEs. Of note, law enforcement actions in Ottawa, ON, such as arrests and dispersions, may encourage individuals to blockade POEs in response.
- As of 0800, 20 February 2022, RCMP has re-opened both northbound and southbound highway access and there is now full resumption of service delivery at Pacific Highway, following a complete route closure Saturday afternoon and evening when a convoy (100+ vehicles) were reportedly travelling in the direction of PAC HWY. Approximately 14 vehicles and 25 protesters remain on site. Protesters at PAC POE's (Osoyoos, Paterson, Kingsgate) have stated they plan to keep protesting at POE's until "things change". The RCMP will continue to remain in the vicinity with various checkpoints to limit volumes and will continue to coordinate with CBSA to manage any protests should they continue.

~

Ideologically Motivated Violent Extremism (IMVE)

- The large law enforcement presence in Ottawa, ON may embolden IMVE actors to attempt to cross into Canada from the U.S. to join protests as they believe law enforcement could be distracted or strained.
- PAC Intel has advised officers to maintain a heightened alert level for possible IMVE threat actors attempting to join protests from the U.S. As of 1630 19 February 2022, RCMP have advised that 5 Soldiers of Odin members are among the protesters at the PAC HWY. A believed member of the Soldiers of Odin IMVE group has made threats of violence on a social media video and insinuates there will be more protests (uncorroborated) at the borders. Ideologically-motivated groups may exploit the deployment of police resources to the National Capital Region to ramp up violent or aggressive action at POE's across Canada.
- According to RCMP known IMVE actors that have participated in the protests have recently posted threatening messages target at law enforcement.
- The RCMP advised that a parody twitter account of a known IMVE actor was reporting that an individual with IMVE associations, who has participated in the Ottawa protests, may be in possession of a firearm (SKS rifle) with a prohibited (unpinned) magazine located in the trunk of his car. However, there is no known related threat linked to a POE and as of 1200 20 February 2022, the report has not been confirmed by RCMP or OPS.

~

Other Threats

- Ongoing threat. The size, unorganized potential and general distraction of some these POE protests continue to create conditions where both criminal actors and migrants may use the events to illegally cross the border into Canada. This may also include protesters who wish to join events on the Canadian side of the border, but do not want to report to Border Service Officers.
 - No update. Peace Bridge POE advised that there was a port runner at 4:41am involving a commercial vehicle under the shipping company **Personal Info.** At this time, there is no indication that the incident is linked to the ongoing protest.
